KM 332 Special

Hydraulic Gripper for Steel Plates

Based on the proven brick stack grapple KM 332 **KINSHOFER** has now constructed a gripper that has been developed especially for the handling of steel plates.

This new gripper has an extremely **large, hydraulic** and absolutely **synchronal adjustment range of 1680 mm!**

Even large plates can be gripped securely and trouble-free.

Integrated non-return valves guarantee a secure retention of loads and thus a safe operation with the tool. In combination with the proven **KINSHOFER**-rotator the steel plates can be easily and securely handled and precisely positioned.

TECHNICAL DATA:

Operating pressure:	240 - 320 bar
Pump capacity:	25-75 l/min
Self weight:	464 kg
Closing force:	30 kN
Load capacity:	2500 kg
